Rex Industries — Financial & Double-Entry Accounting Audit Report

Precision Engineering & Manufacturing ERP • Financial System Certification

Document Ref: AUD-FIN-2026-001
Audit Date: October 2026

✓ FULLY AUDITED & CERTIFIED

1. Executive Summary

This audit certifies the complete integrity, double-entry balance, and commercial compliance of the **Rex Industries ERP** financial subsystem. All transactions across the manufacturing life-cycle—from early Quotations and Advance Proformas to Work Order WIP, Final Tax Invoicing, and Customer Payment Receipts—have been verified against Sri Lankan accounting standards (LKAS/SLFRS) and Inland Revenue Department (IRD) taxation rules.

Key Certification Deliverables:

- **Chart of Accounts Optimization:** Redundant accounts purged; renamed vague items; expanded to 32 standardized manufacturing & tax accounts.
- **Double-Entry Golden Rules:** Bilingual (Sinhala/English) guidance embedded into the platform Help System.
- **Sri Lankan Compound Taxation:** Output VAT (18%) and SSCL (2.5%) math audited (20.95% effective rate) with automated sub-ledger postings.
- **Commercial Pipeline Alignment:** Stage 3 advance billing re-routed to Advance Proforma Invoices (non-tax); Stage 6 issues legal Tax Invoices with advance deduction.
- **Payment Receipts Engine & Dedicated Hub:** Automated receipt generation on invoice payments, immediate A4 voucher printing, and centralized tracking.

2. 6-Stage Commercial & Financial Lifecycle

Stage 01
Quotation
BOM estimation & customer sign-off. No financial impact.

Stage 02
Sales Order
Commercial commitment & production order reservation.

Stage 03
Advance Proforma
Deposit demand. Dr Bank, Cr Customer Advance. No Tax.

Stage 04
Work Order (WIP)
Material issue to shop. Dr 1620 WIP, Cr 1600 Raw Materials.

Stage 05
Dispatch Note
Finished goods QA clearance & security gate pass release.

Stage 06
Final Tax Invoice
Legal billing. Recognizes Revenue, 18% VAT, 2.5% SSCL, offsets Advance.

3. Double-Entry Accounting Golden Rules (හර / බැර මූලධර්ම)

1. Real Accounts (Assets / වත්කම්)

ලැබෙන දේ හර (Debit), පිටවන දේ බැර (Credit)

Rule: Debit what comes in, Credit what goes out.
Examples: Cash/Bank received is **Debit (Dr)**. Cash/Bank paid out is **Credit (Cr)**. Machinery purchased is **Debit (Dr)**.

2. Personal Accounts (Debtors/Creditors)

ලබන්නා හර (Debit), ලබාදෙන්නා බැර (Credit)

Rule: Debit the receiver, Credit the giver.
Examples: Credit customer balance is **Debit (Dr AR)**. Material purchased on credit is **Credit (Cr AP)** to supplier.

3. Nominal Accounts (Revenue/Expenses)

සියලු වියදම් හර (Debit), සියලු ආදායම් බැර (Credit)

Rule: Debit all expenses & losses, Credit all income & gains.
Examples: Electricity, machine repairs, wages are **Debit (Dr Expense)**. Precision sales revenue is **Credit (Cr Sales)**.

4. Standard Manufacturing Journal Postings

LIFECYCLE STAGE	DEBIT POSTING (DR)	CREDIT POSTING (CR)	ACCOUNTING COMMENTARY
Stage 3: Advance Proforma Deposit	`1020 Commercial Bank` (Asset ↑)	`2150 Customer Advance Deposits` (Liability ↑)	No Sales Revenue or VAT/SSCL liability is recognized. Advance is held on Balance Sheet.
Stage 4: Material Issue to Shop Floor	`1620 Work-in-Progress (WIP)` (Asset ↑)	`1600 Raw Materials Inventory` (Asset ↓)	Tracks raw steel plate and bar stock moving into active production machining jobs.
Stage 5: Work Order Completion	`1610 Finished Goods Inventory` (Asset ↑)	`1620 Work-in-Progress (WIP)` (Asset ↓)	Transfers accumulated labor, machine hours, and materials into finished inventory.
Stage 6: Final Commercial Tax Invoice	`1200 Accounts Receivable` (Net Due) `2150 Customer Advance` (Offset Dr)	`4000 Sales Revenue` (Base) `2210 Output VAT 18%` (Govt) `2220 SSCL 2.5%` (Govt)	Recognizes legal revenue and government tax liabilities while

LIFECYCLE STAGE	DEBIT POSTING (DR)	CREDIT POSTING (CR)	ACCOUNTING COMMENTARY
			eliminating previous advance deposit.
Final Payment Settlement	`1020 Commercial Bank` (Asset ↑)	`1200 Accounts Receivable` (Asset ↓)	Customer liability cleared. System issues official signed Payment Receipt Voucher.

5. Certified 32-Account Chart of Accounts (COA) Master

The updated Master Ledger eliminates previously ambiguous accounts (e.g. `4001 Electric item` reclassified to `5003 Factory Electrical Consumables`) and introduces dedicated manufacturing and taxation sub-ledgers:

CODE	ACCOUNT TITLE	TYPE	CATEGORY	OPERATIONAL PURPOSE
1010	Cash in Hand	Asset	Current Asset	Petty cash & physical receipts
1020	Bank - Commercial Bank	Asset	Current Asset	Primary commercial operating account
1021	Bank - Hatton National Bank (HNB)	Asset	Current Asset	Secondary operations & payroll
1022	Bank - Sampath Bank	Asset	Current Asset	Collections & supplier payments
1200	Accounts Receivable (Debtors)	Asset	Current Asset	Customer trade receivables
1300	Input VAT Receivable	Asset	Current Asset	18% VAT paid on raw materials/spares
1500	Land & Buildings	Asset	Fixed Asset	Factory freehold property
1510	Plant & Machinery	Asset	Fixed Asset	CNC mills, lathes, EDM machines
1520	Office Equipment & Computers	Asset	Fixed Asset	Engineering workstations & servers
1530	Motor Vehicles	Asset	Fixed Asset	Commercial dispatch lorries & vans
1600	Raw Materials Inventory	Asset	Current Asset	Steel stock, brass, bronze, shafts
1610	Finished Goods Inventory	Asset	Current Asset	Machined parts ready for dispatch
1620	Work-in-Progress (WIP) Inventory	Asset	Current Asset	Active shop floor job costs
1750	Accum. Depreciation - Machinery	Asset	Contra-Asset	Provision for machinery wear & tear
2000	Accounts Payable (Creditors)	Liability	Current Liability	Raw material & tooling suppliers
2100	Accrued Expenses	Liability	Current Liability	Utility provisions & accrued wages
2150	Customer Advance / Proforma Deposits	Liability	Current Liability	Prepayments held before dispatch
2200	Sales Tax Payable	Liability	Current Liability	General commercial sales tax
2210	Output VAT Payable (18%)	Liability	Current Liability	Legal VAT liability payable to IRD
2220	SSCL Payable (2.5%)	Liability	Current Liability	Social Security Contribution Levy
2500	Bank Term Loan	Liability	Long Term	Capital machinery financing facility
3000	Share Capital	Equity	Equity	Issued capital of Rex Industries
3100	Retained Earnings	Equity	Equity	Accumulated operating reserves
4000	Sales Revenue - Manufacturing	Revenue	Operating Revenue	Precision engineering & fabrication
4100	Service & Repair Income	Revenue	Operating Revenue	Machine maintenance & refurbishment
5000	Raw Material Consumption	Expense	COGS	Direct metal & consumables used
5003	Factory Electrical Consumables	Expense	Factory Overhead	Relays, motor switches, wiring, contactors
5100	Direct Manufacturing Cost / COGS	Expense	COGS	Total direct shop manufacturing costs
6000	Salaries & Wages	Expense	Operating Expense	Machinists, operators & admin payroll
6100	Factory Rent & Rates	Expense	Operating Expense	Industrial premises lease & municipal rates
6200	Electricity & Power	Expense	Operating Expense	3-Phase industrial electricity bills
6300	Machine Maintenance & Repairs	Expense	Operating Expense	CNC servicing, tooling replacement, oils

6. Sri Lanka Taxation Audit (VAT 18% & SSCL 2.5%)

The Inland Revenue Department requires compounding calculation for VAT and SSCL. The ERP engine calculation is verified as follows:

```
1. Base Amount = Net Goods Value after discount
2. SSCL (2.5%) = Base Amount × 0.025              [Posted to GL: 2220]
3. VAT (18%)   = (Base Amount + SSCL) × 0.18        [Posted to GL: 2210]
4. Gross Total = Base Amount + SSCL + VAT            [Effective Tax Rate: 20.95%]
```

AUDIT BENCHMARK ITEM	BENCHMARK AMOUNT (LKR)	ERP SYSTEM RESULT (LKR)	VARIANCE	AUDIT STATUS
Base Order Value (Sample Commercial Machining)	100,000.00	100,000.00	0.00	MATCH
SSCL @ 2.50% (GL: 2220 SSCL Payable)	2,500.00	2,500.00	0.00	MATCH
VAT Base (Base + SSCL: LKR 102,500.00)	102,500.00	102,500.00	0.00	MATCH
Output VAT @ 18.00% (GL: 2210 Output VAT Payable)	18,450.00	18,450.00	0.00	MATCH
Total Final Commercial Tax Invoice Amount	**120,950.00**	**120,950.00**	**0.00**	VERIFIED

7. Payment Receipts Engine & Audit Monitoring

Audited Features:

- **Automatic Receipt Generation:** Logging an invoice payment instantly creates an official voucher record (`REC-YYYYMMDD-XXXX`) indexed with `invoiceId` & `invoiceNo`.
- **Instant A4 Voucher Printing:** Modal offers instant high-fidelity A4 PDF voucher download and thermal/inkjet print options.
- **View Drawer Reprints:** Invoices view drawer displays a `[ 🖨 Receipt]` button alongside each payment entry.
- **Centralized Monitoring:** Accessible via Invoices ribbon `[Receipts Monitor]` button and Receivables Hub (Tab 4).

8. Audit Summary & Sign-off

AUDIT VERIFICATION AREA	STANDARD APPLIED	RESULT	CERTIFICATION
Chart of Accounts Structure	Sri Lankan Manufacturing Standard (32 GLs)	Clean, No Duplicates	PASSED
Double-Entry Debit/Credit Parity	Fundamental Accounting Equation (A = L + E)	Balanced Postings	PASSED
Advance Proforma Handling	Revenue Non-Recognition Prior to Dispatch	Proformas Bypassed from GL	PASSED
Tax Computation Engine	Inland Revenue Act (VAT 18% + SSCL 2.5%)	Exact Compound Match	PASSED
Payment Receipt Voucher Engine	Auditable Cash/Bank Inflow Tracking	100% Traceable to Invoices	PASSED
