REX INDUSTRIES (PVT) LTD

Industrial Manufacturing, Engineering & Infrastructure Solutions

MASTER ENTERPRISE EDITION
V4.0 • 2026

COMPLETE OPERATIONAL MANUAL & CORPORATE GOVERNANCE SOP

Full Enterprise User Manual

The definitive reference manual for all 10 core modules in Rex Industries ERP. Complete operational guidelines covering CRM Leads & Estimations, Sales Orders with Attention (attn) contact person, Advance Payment Receipts (REC) with 5x7 UI controls, Procure-to-Pay (P2P), Inventory Cut Studio, Factory Work Orders, Non-Mandatory Vehicle Commercial Dispatch, Final Tax Invoicing, Double-Entry General Ledger, Human Resources, Multi-Tier Approvals, and Rex AI Assistant.

Commercial & Sales

Leads, Customers, Quotations, and Sales Orders with verified Attention contacts.

Advance Receipts (REC)

Pre-payment gatekeeper, IRD Gazette 2481/22 notice & calibrated A4 vouchers.

Procurement & Stores

MRs, POs, GRNs with carrier details, Bills, and Linear Stock Cut Studio.

Logistics & Finance

Optional vehicle dispatch, Tax Invoicing with advance deduction, and GL sync.

Complete System Architecture & Table of Contents

The **Rex Industries Enterprise Resource Planning (ERP) Platform** integrates all functional divisions into a synchronized digital architecture. Every department operates within defined workflows that eliminate data silos, revenue leakage, and regulatory non-compliance.

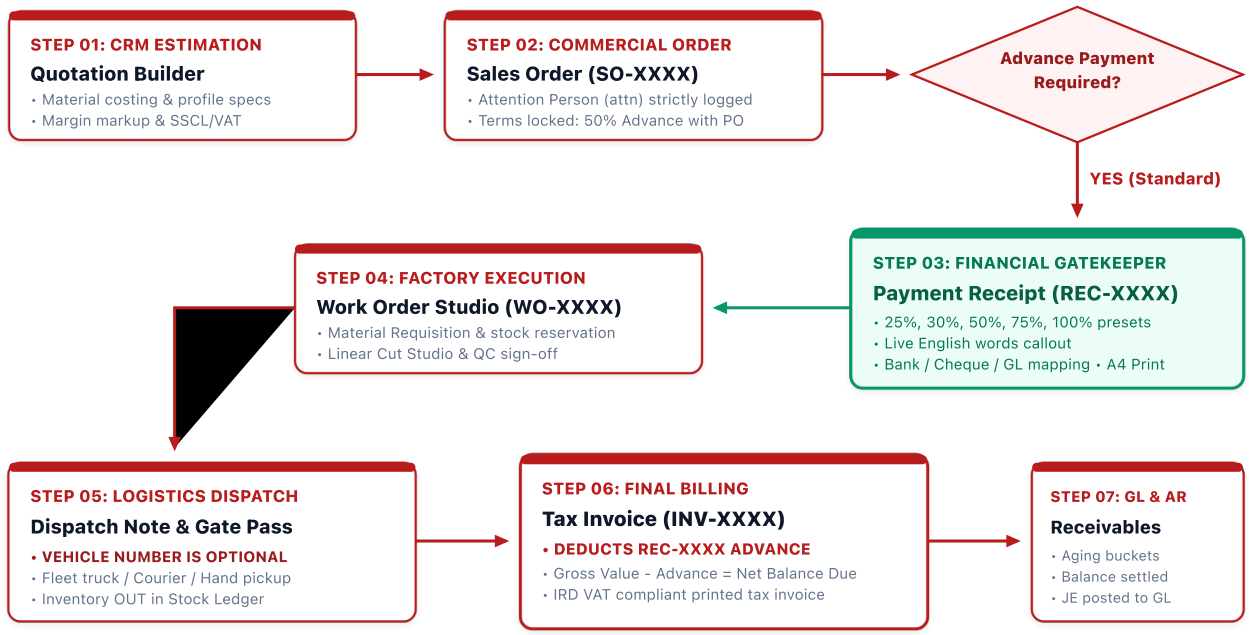

SECTION	OPERATIONAL MODULE / FUNCTIONAL SCOPE	CUSTODIANS & ROLES
Part I	Macro Enterprise Architecture & End-to-End Workflow Diagram	EXECUTIVE BOARD
Part II	CRM & Commercial: Leads, Quotes, Sales Orders & Attention (attn) Rules	SALES & ESTIMATING
Part III	Advance Payment Receipts (REC): 5x7 Modal, A4 Print, IRD Gazette 2481/22	FINANCE & CASHIER
Part IV	Procurement & Supply Chain (P2P): MR, PO, GRN (Carrier/Vehicle) & Bills	PURCHASING
Part V	Inventory & Warehouse: Stock Ledger, Cut Studio & Security Gate Passes	STORES & WAREHOUSE
Part VI	Manufacturing & Production: Work Order Studio & Machinery Maintenance	FACTORY ENGINEERS
Part VII	Logistics & Dispatch: Carrier Routing & Non-Mandatory Vehicle Number Rule	DISPATCH & SECURITY
Part VIII	Billing & Tax Invoicing: Automated Advance Deduction & VAT Calculation	BILLING & AUDIT
Part IX	Finance & Accounting: COA, Journals, Banking, AR/AP, Fixed Assets, Cost Centers	CHIEF FINANCIAL OFFICER
Part X	Human Resources: Employees, Technical Skills & Production Labor Reports	HR MANAGEMENT
Part XI	Administration, Approvals Matrix, Settings & Rex AI Assistant	SYSTEM ADMIN & IT
Part XII	SOP Checklists, Troubleshooting Matrix & IRD Board Ratification	ALL STAFF

Master Enterprise Process Map

The visual map below outlines the chronological sequence of every customer order within Rex ERP. Each stage enforces strict data verification, ensuring legal clarity, financial security, and zero unbilled shipments.

Figure 1.1: Complete Enterprise Order-to-Cash (O2C) & Financial Settlement Map

MACRO ARCHITECTURE

CRM & Commercial Management

The CRM module manages the complete pre-sales funnel: Leads qualification, Deals pipeline, Contacts, Follow-up reminders, Quotations, and Sales Orders.

1. Leads & Customer Registry

Captures corporate names, BRN/TIN tax numbers, primary contact persons, credit limits, and billing addresses. Prevents transactions with unverified accounts.

2. Product vs Custom Quotes

Product Quotations use catalog units. Custom Engineering Quotes use profile length, width, and height (mm) to compute precise aluminum extrusion costs.

3. Multi-Tier Approvals

Quotations with profit margins below policy thresholds (e.g. < 20%) or customer credit limits are routed to management for formal sign-off before dispatch.

Attention Contact Person (attn) System Enforcement

The **Attention Person (attn)** specifies the authorized corporate officer responsible for the contract. This field is mandatory on Sales Orders and cascades through all downstream documents.

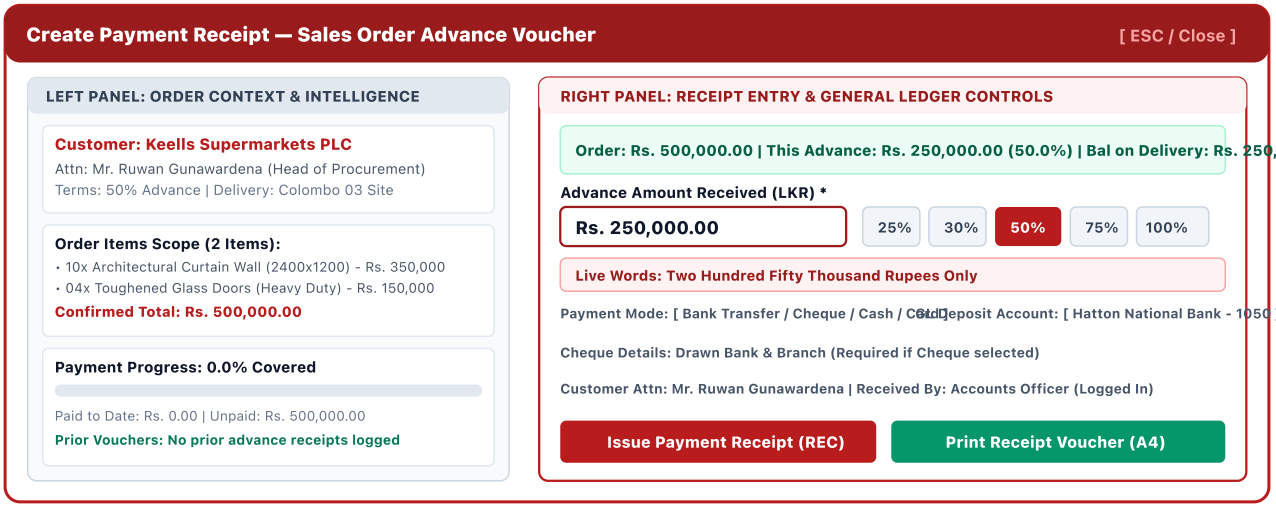

DOWNSTREAM DOCUMENT	ATTENTION STRING HANDLING	OPERATIONAL & LEGAL CONSEQUENCE
Sales Order (SO-XXXX)	Captured & Stored in Database	Locks individual customer authority; printed on customer order confirmation.
Advance Receipt (REC-XXXX)	Inherited on Left & Right Panels	Printed on official A4 voucher: *"Received with thanks from ... Attn: [Officer]"*.
Gate Pass (GP-XXXX)	Pre-filled in Delivery Note	Security checkpoint verifies recipient contact before goods exit the factory.
Tax Invoice (INV-XXXX)	Displayed on Tax Invoice Header	Ensures commercial tax invoice is delivered directly to the designated officer.

Advance Payment Receipts (REC) Architecture

The Advance Payment Receipt module provides an airtight financial gatekeeper, ensuring advance deposits are recorded and compliant with Inland Revenue Department Gazette No. 2481/22.

Figure 3.1: CreatePaymentReceiptModal (5x7 Layout Architecture Wireframe)

UI WIREFRAME SPECIFICATION

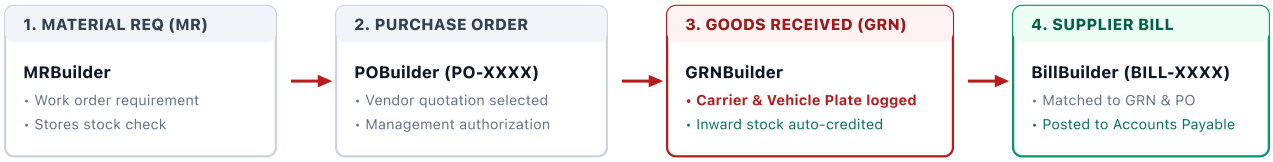

Procurement & Purchasing Lifecycle (P2P)

The Purchasing Hub coordinates raw material procurement to ensure the factory receives high-grade aluminum, steel, and hardware without inventory stock-outs.

Figure 4.1: Procure-to-Pay (P2P) Operational Lifecycle

SUPPLY CHAIN WORKFLOW

Goods Received Notes (GRN) Logging

When shipments arrive, stores inspectors log supplier delivery note numbers, storage bin locations, carrier names, and **inbound vehicle registration numbers** to verify weight tickets and guard security gates.

3-Way Matching & Bill Approval

Before releasing vendor payment, the accounting team verifies the **PO price, GRN accepted quantity, and Supplier Invoice**. Discrepancies generate a debit note rather than payment.

Inventory Management & Cut Optimization

The Inventory module maintains real-time valuation of raw profiles, hardware accessories, and finished assemblies across central and branch storage yards.

Stock Ledger Audit Types

Tracks all movements: `IN` (GRN receipts), `OUT / DISPATCH` (Sales deliveries), `SCRAP` (Offcut waste), and `ADJUSTMENT` (Stocktaking audits).

Linear Stock Cut Studio

Calculates nesting layouts on 6,000mm standard aluminum extrusions. Maximizes profile yields, accounts for 3mm blade kerf, and tags reusable off-cuts (> 1,200mm).

Material Issue Hub

Enforces authorized requisition slips before materials leave raw stores. Deducts available inventory and transfers value into Work-in-Progress (WIP).

Security Gate Pass System (Goods Delivery vs Sample)

Security checkpoints control factory perimeter exits using dual gate pass formats:

1. Commercial Goods Gate Pass

Issued upon confirmed Sales Order dispatch. Cross-references commercial invoices and customer delivery receipts.

2. Sample Outward Gate Pass

Issued for client mockups, architect samples, or warranty inspections. Requires scheduled return dates and custodian sign-off.

Production Execution & Machinery Management

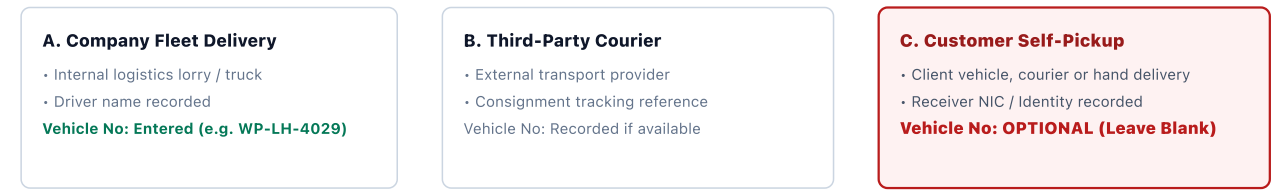

Work Orders progress through structured fabrication stages: Profile Cutting, CNC Milling, Surface Finishing, Unit Assembly, Glazing, and Final Quality Control (QC).

- **Plant & Machinery Hub:** Logs machine tools, CNC cutters, and anodizing baths to monitor operating hours, prevent breakdown stoppages, and compute asset depreciation.
- **Quality Control Inspection:** Completed units are tagged with serial barcode stickers before being transferred into the Finished Goods bay.

Commercial Dispatch & Non-Mandatory Vehicle Rule

When products are packaged and ready for delivery, the warehouse opens the **Commercial Dispatch Modal**.

Figure 7.1: Logistics Carrier Routing & Non-Mandatory Vehicle Number Logic LOGISTICS SOP

Dispatch Resolution: Vehicle Number is Non-Mandatory
To prevent shipping delays when clients collect products via foot, three-wheeler, or third-party courier without a known license plate, the **Vehicle Number** field in the dispatch dialog is **strictly Optional**. Dispatches submit without validation errors when the vehicle number is left empty.

Final Commercial & Tax Invoicing (INV)

Upon commercial dispatch confirmation, the billing team generates the **Final Tax Invoice (INV-XXXX)**. The billing engine pulls the linked Sales Order and automatically deducts all advance payment receipts collected.

Figure 8.1: Tax Invoice Calculation & Advance Voucher Deduction

INVOICING ENGINE MATH

1. CONFIRMED ORDER TOTAL

Subtotal (Net): Rs. 423,728.81
VAT @ 18%: Rs. 76,271.19

Gross Consideration:
Rs. 500,000.00

−

2. ADVANCE VOUCHER (REC)

Voucher: REC-2048
Payment Mode: Bank Transfer

Advance Deducted (50%):
Rs. 250,000.00

=

3. NET AMOUNT PAYABLE

Gate Pass Ref: GP-3056
Terms: Immediate on Delivery

Final Balance Due:
Rs. 250,000.00

Finance & General Ledger Accounting

Rex ERP features synchronized double-entry bookkeeping across all corporate operations:

MILESTONE	ACCOUNT DEBITED (DR)	ACCOUNT CREDITED (CR)	FINANCIAL ACCOUNTING RATIONALE
Advance Receipt (REC)	**Bank Account (1050)** Rs. 250,000.00	**Customer Advance Deposit (2150)** Rs. 250,000.00	Increases bank assets; books customer deposit as a balance sheet liability until goods are supplied (SLFRS 15).
Supplier Bill (BILL)	**Raw Materials Inventory (1310)** Rs. 180,000.00	**Accounts Payable (2000)** Rs. 180,000.00	Recognizes raw stock received and registers liability to vendor.
Final Invoice (INV)	**Customer Advance (2150)**: Rs. 250,000 **Accounts Receivable (1200)**: Rs. 250,000	**Sales Revenue (4000)**: Rs. 423,728.81 **Output VAT (2200)**: Rs. 76,271.19	Clears advance liability; recognizes gross revenue and statutory VAT; books remaining balance into Trade Debtors.
Balance Payment	**Bank Account (1050)** Rs. 250,000.00	**Accounts Receivable (1200)** Rs. 250,000.00	Customer clears remaining balance upon delivery, reducing Trade Debtors to zero.

Banking & Reconciliation

Reconciles bank statement transactions against issued receipts and vendor cheques, identifying uncleared deposits.

Fixed Assets & Depreciation

Registers plant machinery and delivery vehicles, computing monthly straight-line depreciation per corporate tax guidelines.

Financial Statements

Instantly compiles Profit & Loss (P&L), Balance Sheet, Trial Balance, Cash Flow, and IRD VAT/SSCL returns.

Human Resources & Labor Costing

The HR module tracks employee profiles, technician trade skills, and fabrication labor hours:

- **Employees Directory:** Staff profiles, EPF/ETF identification numbers, department allocations, and wage rates.
- **Skills Matrix:** Records certifications for specialized trades (TIG welding, structural glazing, CNC operation).
- **Labor Costing Report:** Allocates direct worker hours to specific Work Orders (WO-XXXX) for accurate job costing.

Administration, Security & Rex AI Assistant

User Management & RBAC Permissions

Role-Based Access Control governs granular user capabilities (Sales, Cashier, Stores, Accounts, Admin), ensuring strict segregation of duties.

Rex AI Assistant

Integrated conversational AI assistant accessible across the ERP. Answers staff operational questions, analyzes inventory trends, and summarizes financial KPIs.

Operational SOP Checklists

ROLE / DEPARTMENT	PRIMARY SYSTEM TASK	MANDATORY VERIFICATION CHECKLIST
Sales Executive	Draft Quotes & Sales Orders	✓ Enter Attention (attn) contact • Verify margin • Confirm 50% advance terms.
Finance Cashier	Issue Payment Receipt (REC)	✓ Verify bank slip • Use % buttons • Check live words • Print A4 voucher.
Purchasing Officer	Issue POs & Log GRNs	✓ 3-way match PO/GRN/Bill • Log inbound carrier/vehicle plate number.
Factory Supervisor	Execute Work Orders	✓ Verify advance receipt before cutting • Run Cut Studio • Sign off QC inspection.
Stores Dispatch	Ship Finished Goods	✓ Issue Gate Pass • Leave vehicle number blank if customer pickup.
Billing Officer	Final Tax Invoice	✓ Verify auto-deduction of advance receipt (REC) • Cross-link Gate Pass.

REX INDUSTRIES (PVT) LTD — OFFICIAL BOARD RATIFICATION

This Complete Standard Operating Procedure & System User Manual (Document Ref: SOP-REX-ERP-2026-V4.0) is officially approved and ratified by the Executive Directorate of Rex Industries (Pvt) Ltd.

Head of Commercial	Chief Financial Officer	Managing Director
Sales & Estimating	Finance & Audit	Executive Directorate

Certification Date: 23rd October 2026 • Registered Corporate Office: Colombo, Sri Lanka
